

## ► Unlock the Power of Automated Service Ordering (ASO) with Encompass

### Maximize Efficiency, Minimize Manual Effort

If you're using Encompass, are you truly leveraging Automated Service Ordering (ASO) to its full potential? Many lenders under utilize this feature, leaving significant time savings and efficiency gains on the table.

### ASO isn't just a convenience, it's a competitive advantage.

With TSV products seamlessly integrated into Encompass, you can automate critical services such as:

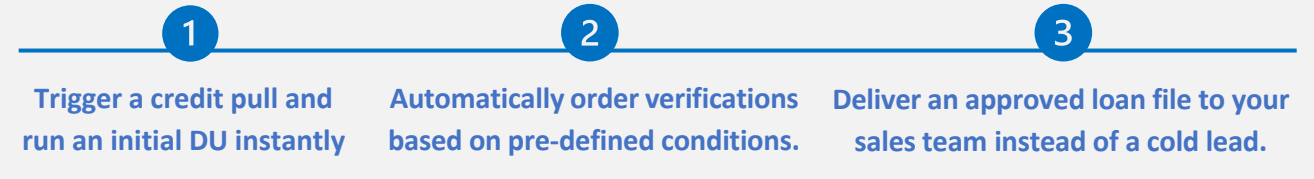

Tax Transcripts (4506-C)	SSA-89 (SSN Verifications)
VOEs (Verifications of Employment)	VOA (Verifications of Assets)

### Why Automate?

Many lenders hesitate to adopt automation due to perceived risks, but with the right implementation, **ASO can streamline workflows without disruption**. Jaki has successfully launched numerous automation projects, ensuring seamless execution and optimized efficiency.

### How It Works

Imagine a borrower **applying online and consenting to a credit pull**. Instead of waiting for a loan officer to manually initiate processes, automation can:

**The best part?** You're not ordering anything a loan officer or processor wouldn't have ordered manually—you're simply doing it faster and smarter.

### Tailored ASO Implementation for Service 1st Clients

Service 1st (powered by NCS) is here to help lenders implement and optimize ASO for their verification services. Schedule a mini-meet to evaluate your current processes and design a custom ASO roadmap that aligns with your workflow.

### Talk with a Human. Meet Jaki.

Set up a time with Jaki to discuss your automation goals and possibilities. Together, we'll ensure that your LOS investment delivers maximum ROI while keeping your processes precise and controlled.
